

# FBT Film and Entertainment

Official Banking Partner of the  
NEW ORLEANS SAINTS

Louisiana has experienced explosive growth in the number of film projects produced in the state. FBT Film and Entertainment specializes in supporting commercials, documentaries, studio and independent film and television programs.

FBT Film and Entertainment's common ownership with First Bank and Trust makes us the only bank-affiliated company in Louisiana capable of handling your banking and production needs. Plus, we have the flexibility and oversight of an investment firm through FBT Investments, to evaluate gap structures and production insurance offered through First Insurance Agency. All under one roof!

We've been retained by numerous studios, production companies, and independent filmmakers to evaluate the best ways to maximize the value of production film credits through the introduction of Louisiana companies and vendors. Our advisory role has also led FBT Film Credit to be contracted to handle the sale of film, labor and infrastructure credits to our large statewide investor base. Thus, we offer competitive rates to reward production activities. These factors have helped make FBT Film and Entertainment the most sought after "one-stop-shop" in Louisiana.

Our Los Angeles staff has extensive experience in the entertainment industry and fully understands the process of budget analysis, financing, locations, credit applications and maximizing the Louisiana production process.
